SETTING UP SYNGLYPHX

With the software installed, you can now set up SynGlyphX.

1. OPEN SynGlyphX’s GLYPHVIEWER module

- a. On your desktop you will see a SynGlyphX “X” icon, launch it
- b. GLYPHVIEWER will launch

2. ENTER USER NAME & PASSWORD

- a. Enter the Username and Password you provided during registration.
NOTE: You may select “Keep me Logged In” if your computer is secure and you do not want to re-enter these credentials each time.
- b. You will now see the SynGlyphX Home Screen. (Do not close the software yet.)

3. ENTER MAPQUEST KEY

The MapQuest key allows the software to download maps for use in geolocated (i.e., map-based) visualizations. Follow the steps below to input your MapQuest key.

- a. Copy this MapQuest key¹: Gddq9xHqO3vxYlSqzhkvOknWM8FgrtMV
- b. From the SynGlyphX® Home screen:
 - Click on **Tools > Map Download Settings**
 - Paste or Type the key into the MapQuest Open Key field.
- c. Click “OK”.

Congratulations! SynGlyphX is now ready to use.

If you have any questions or encounter any issues during the install and set-up process, please contact SUPPORT@SynGlyphX.com.

¹ MapQuest key is provided for use during this course. For future use, download a personal MapQuest key from MapQuest.
